**Re:** This correspondence amends and supplements the Response Action Outcome dated July 9, 2015

**Remedial Action Type:** Unrestricted Use

**Scope of Remediation:** Soils Only, Area of Concern: Block 39.04, Lots 11.01 and 12.01 (also known as 207 40<sup>th</sup> Street) with soil impacted with polycyclic aromatic hydrocarbons (PAHs), and benzene, toluene, ethylbenzene, and total xylenes (BTEX) associated with the nearby Sea Isle City Manufactured Gas Plant, and no other areas.

**Case Name:** Sea Isle City Former Manufactured Gas Plant Site  
**Address:** 210 39<sup>th</sup> Street  
**Municipality:** City of Sea Isle City  
**County:** Cape May

**Block 39.04 Lots:** 22, 23, and 24

**Preferred ID:** G000006130

Dear Mr. Lawson:

This correspondence amends the Response Action Outcome issued on July 9, 2015, which remains in full force and effect, by correcting the following administrative errors:

- Addition of Soils Only to the Scope of the Remediation

Please be advised this correspondence, with the above amendments and supplements, corrects administrative errors identified in the original Response Action Outcome issued on July 9, 2015. This correspondence should be attached to the original Response Action Outcome and be maintained as part of your environmental records for the above referenced site.

**Re:** Response Action Outcome

**Remedial Action Type:** Unrestricted Use

**Scope of Remediation:** *Area of Concern:* Block 39.04, Lots 11.01 and 12.01 (also known as 207 40<sup>th</sup> Street) for soil impacted with polycyclic aromatic hydrocarbons (PAHs), and benzene, toluene, ethylbenzene, and total xylenes (BTEX) associated with the nearby Sea Isle City Manufactured Gas Plant, and no other areas.

**Case Name:** Sea Isle City Former Manufactured Gas Plant Site

**Address:** 210 39<sup>th</sup> Street

**Municipality:** City of Sea Isle City

**County:** Cape May

**Block:** 39.04 **Lots:** 22, 23 and 24

**Preferred ID:** G000006130

Dear Mr. Lawson:

As a Licensed Site Remediation Professional authorized pursuant to N.J.S.A. 58:10C to conduct business in New Jersey, I hereby issue this Response Action Outcome for the remediation of the area of concern specifically referenced above. I personally reviewed and accepted all of the referenced remediation and based upon this work, it is my professional opinion that this remediation has been completed in compliance with the Administrative Requirements for the Remediation of Contaminated Sites (N.J.A.C. 7:26C), and that it is protective of public health, safety and the environment. Also, full payment has been made for all Department fees and oversight costs pursuant to N.J.A.C. 7:26C-4.

This remediation includes the completion of a Remedial Investigation and Remedial Action as defined pursuant to the Technical Requirements for Site Remediation (N.J.A.C. 7:26E).

My decision in this matter is made upon the exercise of reasonable care and diligence, and by applying the knowledge and skill ordinarily exercised by licensed site remediation professionals in good standing practicing in the State at the time these professional services are performed.

As required pursuant to N.J.A.C. 7:26C-6.2(b)2ii, a copy of all records related to the remediation that occurred at this location is being simultaneously filed with the New Jersey Department of Environmental Protection (Department). These records contain all information upon which I

based my decision to issue this Response Action Outcome.

By operation of law a Covenant Not to Sue pursuant to N.J.S.A. 58:10B -13.2 applies to this remediation. The Covenant Not to Sue is subject to any conditions and limitations contained herein. The Covenant Not to Sue remains effective only as long as the real property referenced above continues to meet the conditions of this Response Action Outcome.

### **CONDITIONS**

Pursuant to N.J.S.A. 58:10B-12o, Jersey Central Power & Light Co. and any other person who is liable for the cleanup and removal costs, and remains liable pursuant to the Spill Compensation and Control Act, N.J.S.A. 58:10-23.11 et seq. shall inform the Department in writing, on a form available from the Department, within 14 calendar days after its name or address changes. Any notices you submit pursuant to this paragraph shall reference the above case numbers and shall be sent to:

New Jersey Department of Environmental Protection  
Bureau of Case Assignment and Initial Notice  
Mail Code 401-05H  
401 East State Street, 5th floor  
PO Box 420  
Trenton, New Jersey 08625-0420

### **NOTICES**

#### Soils Only Response Action Outcome when Ground Water Contamination remains from that Area of Concern

This Response Action Outcome only applies to the soils at the referenced location. By issuing this Response Action Outcome, I have relied on both the implementation of the remedial action for soil and on the ground water data to support the determination that soil contamination is no longer affecting ground water. Please be advised that if changes in future ground water data no longer support this conclusion, additional soil remediation may be necessary. Also, any redevelopment on this site should take into consideration the potential for vapor intrusion from the ground water contamination. Please note that you may have an affirmative obligation, pursuant to the Brownfield and Contaminated Site Remediation Act, N.J.S.A. 58:10B-1.3, to remediate the remaining contamination, within specific regulatory and mandatory timeframes and within the statutory timeframe specified at N.J.S.A. 58:10C-27.

### **CONCLUSIONS**

In concluding that this remediation has been completed, I am offering no opinions concerning whether either primary restoration (restoring natural resources to their pre-discharge condition) or compensatory restoration (compensating the citizens of New Jersey for the lost interim value of the natural resources) has been completed.

Pursuant to N.J.S.A. 58:10C-25, the Department may audit this Response Action Outcome and associated documentation up to three years following issuance. Based on a finding by the Department that a Response Action Outcome is not protective of public health, safety and the

Mr. Frank Lawson

environment, the Department can invalidate the Response Action Outcome. Other justifications for the Department's invalidation of this Response Action Outcome are listed in the Administrative Requirements for the Remediation of Contaminated Sites at N.J.A.C. 7:26C-6, including, but not limited to, a Department audit following issuance of this document may be initiated at any time if: a) undiscovered contamination is found that was not addressed by the Response Action Outcome, b) if the Site Remediation Professional Licensing Board conducts an investigation of the Licensed Site Remediation Professional issuing the Response Action Outcome or, c) if the license of that person is suspended or revoked.

Thank you for your attention to these matters. If you have any questions, please contact me at (973) 873-7127.

Sincerely,
