

STOP. LOOK. LIVE.

DRONE SAFETY TIP

Flying a Drone?
Stay at least 200 feet
away from power lines and
electrical equipment!

Scan the QR code and join
Max Safety to play the
Drone Safety Zone game!

Max Safety

NEVER attempt to
retrieve a drone
stuck in lines or
crashed into a
substation. Call
1-888-LIGHTSS.
We'll get it for you!

Visit firstenergycorp.com/publicsafety to learn about FirstEnergy's "Stop. Look. Live." safety campaign to educate the public about staying safe around electricity and near power lines and equipment.

Follow FirstEnergy and its electric companies on **Twitter** and **Facebook** all year long for tips and resources to stay safe when using electricity in and around your home.
