At the hearing, Frank Mossburg of Bates White, LLC (“Bid Monitor”) testified on the conduct and results of the SOS solicitations for each IOU and David Hoppock of Commission Staff (“Staff”) testified on the estimates of bill impacts given the results of the April 12, 2021 SOS bidding.

2. The Bid Monitor testified that the April 12, 2021 bid solicitation was for full requirements service for six different products among the four IOUs and that in response to the solicitation for the entire Request for Proposals (“RFP”), approximately 5.5 megawatts (“MW”) were bid for every MW needed overall. The Bid Monitor recommended that the Commission accept the results of the April 12, 2021 bid day. The recommendation was based on the following points: (1) the winning prices were consistent with broader market conditions, and the bid monitor did not reject any winning bids due to the Price Anomaly Threshold; (2) the RFP was sufficiently competitive, with thirteen bidders participating in at least one offering, seven bidders winning a share of supply, and the entire supply of each product fully subscribed; (3) the RFP was open, fair, and transparent, as all bidders, including utility affiliates, signed the same contract
